Arya Annurseno

Jakarta, Indonesia | +6281331267528 | annurseno.arya@gmail.com | www.linkedin.com/in/annurseno/ | senotify.com

Highly skilled and detail-oriented Backend Developer with 5 years of experience designing, developing, and maintaining robust, scalable, and efficient server-side applications. Adept at building RESTful APIs, optimizing database performance, and integrating third-party services. Passionate about writing clean, maintainable code and solving complex technical challenges. Collaborative team player with excellent problem-solving skills and a commitment to delivering high-quality solutions on time.

Education

Binus University – Jakarta, Indonesia   2020 – 2025
Bachelor of Information Systems
Cumulative GPA: **3.5**

Telkom School – Malang, Indonesia   2017 – 2020
Vocational High School in Software Engineering

Professional Experience   5+ Years Experience

Telkom Indonesia – Jakarta, Indonesia   July 2020 – *present*
Backend Developer
Assigned to enhance and innovate MyCarrier, Telkom Indonesia's wholesale platform, by delivering seamless experiences across every stage of the customer journey.
The development of critical features, such as:

- Lead Management System to optimize sales workflow built with AI integration and JIRA's board-like style.
- Content Management System to help marketing team on customizing MyCarrier's Landing page, products, and much more.
- Invoicing to automate financial processes with Telkom's core system integration.
- Fault Handling System to streamline Telkom's issues resolution
- Automated document generation like Invoice Letter and Offering Letter using tools like WYSIWYG and puppeteer
- Business Owner Dashboard to provide real time insights and analytics for decision making integrated with all of MyCarrier's feature

Key achievements include:

- Achieved a remarkable user satisfaction rating of 90 out of 100.
- Generated IDR 1.5 trillion in annual revenue by implementing platform improvements.

Internship Experience

Telkom Indonesia – Jakarta, Indonesia   June 2019 – July 2020

Internship Backend Developer

Joined the internship program through the Teaching Factory program. During the internship, I was assigned to a project:

- CODEX Talent Performance (June 2019 – July 2020)
